

# SINGLE-SOURCE SOLUTIONS

## CONSTRUCTION • CONVERSION • REPAIR

Italian enterprise, Fincantieri, is the largest shipbuilder in the Western World, employing more than 20,000 employees in 21 shipyards on four continents. The company has a rich history of building more than 7,000 ships, and 200-years experience in providing end-to-end, innovative, customer-focused solutions. Fincantieri's impressive resume is a perfect fit with **Bay Shipbuilding Company's** facilities and expertise. With an expansive 52-acre plant, computer-controlled manufacturing equipment and shipbuilding's finest master craftsmen, BSC has the resources and experience to tackle the most demanding shipyard projects.

We've been building and repairing ships, barges and tugs for more than 90-years for very satisfied USCG and commercial customers. Repeat orders from the Great Lakes to the Gulf of Mexico are a testament to the quality and competitive-value pricing of BSC's work—backed by financial strength, personal attention and professional integrity. We'd like to tell you more about how **Bay Shipbuilding Company** can provide cost-effective solutions for the Repair, Conversion, or Winter Lay-Up needs of your fleet. Please contact Michael Pinkham, Vice President of Sales and Marketing, at 715.587.6960.
